25X1 SECRET - 2 -New Airfield at Tokch'on a new airfield 4 kilometers west of Tokch'on (N 39-45, E 126-18) was completed. The Communists planned to use the field as a training 25X1 center for North Korean air force cadets. North Korean Air Force Personnel in North Korea most of the North Korean air force personnel in North 25X1 4. Korea were maintenance and service men who supported Chinese Communist and Soviet pilots. Most Korean pilots in North Korea were stationed south of P'yongyang and Wonsan. They flew biplanes, reconnaissance planes, and a few YAK fighters. North Korean Pilots at Antung and Viju Airfields about 300 Korean pilots were stationed in the Antung area. 25X1 These pilots had completed training, which included instruction in the use of Fifty of these pilots were in action MIG-type jet aircraft 25X1 Another nine pilots were detached and sent to Uiju air-field to supervise technical maintenance of MIG-15 aircraft. The maintenance unit at Uiju airfield was commanded by Major Utpel² a Soviet air force officer 25X1 of Tartar extraction. Comments the headquarters of the North Korean air force was in cliff shelters approximately 2 miles north of Kirim-ni (N 39-02, E 125-45) 25X1 P'yongyang This name was formed from the romanization of Korean sounds.
